

# CONNOISSEUR COLLECTABLES

THIMBLES AND MINISHOES

## Handmade Fine English Bone China and Pewter Thimbles

Sterling & Classic are delighted to present this new and existing range of exclusive Thimbles and Minishoes in this new 12-page brochure. Having been at the forefront of thimble design and manufacture for many years, it still gives us great pleasure and pride to present our new, exclusive designs.

If you are a new customer to Sterling & Classic, you will be interested to know that despite the ever increasing flow of foreign imports, we still make by hand all our own products at our factory in Worcester.

Our highly skilled staff make our own thimbles from Fine English Bone China. They are then hand gilded with gold, and back stamped for authenticity inside each and every thimble.

The pewter subjects, which are fixed to the thimble, are all our own original designs. We design a subject, and then sculpt each piece individually, before making a rubber mould to produce the pewter subject. Finally, when the design is made, we hand paint each and every piece using our own talented artists.

Each thimble comes in its own presentation box, perfectly presented for the new and experienced thimble collector.

## Handmade Pewter Minishoes

Our growing range of pewter Miniature Minishoes, are also designed and manufactured exclusively by us. This range of beautifully handcrafted Minishoes suit not only the discerning collectables collector, but also the dolls house enthusiast. Our same skillful artists also paint these delightful little shoes to the highest standards. Each pair of Minishoes also comes presented in their own little Minishoes shoebox.
